

1800 **Power Conditioner/Light Module**

Features:

- One rack space for mounting
- Eight conditioned AC outlets with spike protection — arranged vertically in order to allow the use of AC adapters — “wall warts”
- Two dimmable, retractable lights
- EMF/RFI filter circuit — helps eliminate problems caused by noisy power lines
- MOV spike circuit — protects your sensitive rack gear from transient voltages
- Resettable 15 amp circuit breaker

Master on/off switch —

Controls the power to the rear outlets.

Rack lights on/off switch —

Controls the power to the 2 retractable lights.

Dimmer knob —

Allows manual control over the brightness of the two lights in the front of your stage or studio rack

Max combined load of switched outlets: 120V AC, 15 A, 1800 W
